

BIRTHING GOD FROM WITHIN MAN – THE PROCESS

The Holy Scriptures were written by holy men and women in times past as the Spirit moved “upon” them. For the most part the writers did not understand what they wrote. The prophets who prophesied the Word also did not understand what they said. In both its written and spoken forms the Word was given in a Universal Metaphysical Language.

The Scriptures contain allegories, fables, wives’ tales, riddles, and parables. The Bible is a book of repetitious writings and prophecies, using different stories with different characters, places, and events to convey to man the same Message, over and over -- that man need not die, but can avoid and overcome death by the Law of Spirit and Life. The instructions in the Bible were given as rods of correction to be used as tools for training the mind, for edification and learning, and for disciplining and training the “senses” during the time of their development. The law of Moses is a carnal law which was given on Mount *Sinai* -- meaning it was given to assist mankind in developing and training his “sense” (sin / Mt. *Sin-ai*) faculties in order that man may reach an elevated and fully developed state.

The five senses of man are his only sources of awareness and his only avenue of learning so long as he walks and thinks as a mortal man. One who conducts his affairs according to the dictates of his five mortal *senses* is said to be “*a sinner*.” He is carnally minded and knows not the things of God (Spirit); his knowledge and his wisdom are of a “sensual” nature because they are of the earth, and earthly. The only difference between animal-man and any other animal is the state of development of man’s five senses and his ability to keep them under his control. His state of development makes him the “wisest,” the most cunning, and the brightest of them all.

The law was not given until mankind’s five senses had reached the state of development wherein the faculties of “reason and logic” began to develop. His consciousness of mind had also expanded to the point where he was capable of learning to read the written Word and learn by “hearing” the spoken Word. His state of mind and the development of his child-like sense faculties are the reasons why the Scriptures were given in a metaphoric language. Each time the “Word” was re-revealed to another writer or to another prophet / teacher, a different metaphor or word-picture was given as a means to help develop the senses more fully and to continue to expand the light and consciousness of mind of the one to whom it was given and to all who would believe because of his words.

By the word of the law, man also learned to “speak” the Word. Because of his ignorance of the *Law of the Spoken Word*, man has brought upon himself an immeasurable, and at times an almost unbearable amount of pain and suffering. The law that was meant for good has proven to be man’s greatest foe. To this day, only a mighty few of the men of earth realize that in the power of man’s tongue are Life and / or death. *Little do they know that they are ruled and judged by their own spoken words and the content of their hearts.* The only law that governs a man’s life and his affairs are *the words of his own mouth*. By his own words a man shall be justified in his deeds, or he shall be condemned to death. Man is his own counselor, judge, jury, jailer, and executioner. He is also his own liberator.

The spoken word is a Universal Law, and *man shall have whatsoever he will say*. The word is a seed and it is the “power of creation.” It is also the power of damnation when it is misappropriated. The people perish because of a lack of understanding of the *power and the spirit of the spoken word*. By the Spirit of Wisdom and the power of the spoken word, all things were and are created. But the “word” is a double-edged sword. By the misappropriation of *the same spoken word*, destruction and all manner of pain and suffering has come upon all mankind. Because of the hardness of man’s heart and his lack of love of

Truth, the understanding of his mind is blinded. Man's selfishness, ignorance, and rebellion keep him continually on the wheel of reincarnation, lifetime after lifetime. But now the time has come when this kind of rotation and life-cycle must change.

A noticeable worldwide increase in all manner of violence, hatred, and murder, and a lack of respect for the sanctity of Life are sure and obvious *signs of the times, and of the hour and the time left on the Cosmic Clock*. The beginning stages of the preparation for a new orbit around the Grand Central Sun are causing an increase in the frequency rate in the earth realm and elsewhere. Because of this new rate of vibration, the magnetic field around the earth is intensifying in its electrical output and the force field is becoming more "quick."

During this Grand Cycle, planet Earth, along with all of the other planets in this solar system, will be slowly "lifted up" and into the fourth dimensional state. For this reason it will not be "business as usual" for mankind on planet Earth. All inhabitants of planet Earth must expand their Light and Consciousness of Mind. By so doing, mankind will increase his conscious awareness of Life -- and thereby he will raise the rate of the vibration of his being and he will live and exist on a higher frequency level than he now exists on. All who fail to raise their conscious awareness of Spiritual Knowledge and Life in the Spirit -- and thereby attain a significant degree of Spiritual Enlightenment -- will lose their "place" in the developmental process. That which they seemed to have achieved or gained will be lost. They will not be able to enter into another developmental (time) cycle for a very, very long time.

This is what is meant by the "destruction" of the Soul. The Soul is the record and "memory" of one's experiences while he is in the developmental process. Each time he incarnates, he starts a new recording of his experiences while he is in that particular incarnation. Each time he reincarnates, he "forgets" his past experiences and he temporarily "loses" his memory, which is his "lost Soul."

A man's temporarily "lost" memory of all of his present and past experiences is "kept on file" in his subconscious mind. As his senses and personality reach a more fully developed and more mature state, he will on occasion *re-member parts* of his past experiences. As he continues to grow in Knowledge and expand his Light of Mind, he will ultimately "re-connect" with all of his past experiences. This does not occur, however, until one is nearing the end of the necessary training and development of his sense faculties.

Once a man has reached a sufficient state of discipline, training, and development in the third dimension vibration -- and he is able to assume a more responsible and higher order of learning-- he will slowly begin to merge into the fourth dimensional state of consciousness and live at a higher frequency level. During the growth process, and with great and consistent discipline, the five earthly, mortal senses will eventually become fully developed while the individual is still operating in the state of a natural holy man. When he has reached this state of development and maturity, he is now ready to enter into a higher state of discipline and development. *This is called "entering into the Christ Consciousness."* He will enter this "higher" state, however, in the same manner that he entered the state of sensual man. Mankind entered into the "kingdom of man" as a developing sensual creature, where he remains and continues to develop as a man until he reaches a fully developed state. ***He entered into the kingdom of man as a "child" -- and he will also make his entrance into the "Kingdom of God" as a "converted," Christed, developing Child.***

When he is born of the Holy Spirit, no part of a man remains the same. He is first "begotten" (sired) while he is yet in his "sensual" state, and as he grows in the admonition and counsel of the Spirit of God he increases his Knowledge and Wisdom of a Higher Law that operates on a higher order and on a higher plane of existence. In this manner he develops his higher senses and matures in Spiritual Knowledge and

Wisdom. This process continues until the individual reaches a state of development -- both physically and spiritually -- when he will be “*begotten again*” by the Spirit of God, and a new Spiritual body will be formed out of Divine, incorrupt, living Substance. When *this* new body is *fully* formed and the appointed time has fully come, he will be “*born again*.”

Many people throughout the world today are claiming to be “born again,” especially in the evangelical “Christian” religion. Nothing could be further from the Truth! When one is begotten, formed, and born of God (Spirit), he is born having the Divine nature of God -- just as one who is begotten, formed, and born of man is of mankind and has his nature. God is not man-kind (flesh)! God is “Spirit-Kind.” Being “born again of the Spirit of God” means exactly that; a man (body) who is “born of Spirit” is a “Spirit-being,” possessing all of the faculties and attributes, and the Mind and the nature of God! When he is “born again,” every aspect of a man is completely changed. His sense faculties are “converted” from an earthly and sensual (sinful) nature to a heavenly, Divine nature (meaning a Spiritual, Holy, and Godly nature).

During the developmental process, one cannot “see” the “God-Child” within the physical bodily structure, any more than one can “see” a man-child while it is developing and growing in the womb of its mother. Nevertheless, when the “fullness” of time has come, **THE MAN CHILD WILL BE BORN AND SEEN!** Likewise, the “God-Child” shall also be “**BORN AND SEEN**” when the fullness of time has come.

There is absolutely nothing in the earth realm that is manifesting in a bodily form that is not “born a child.” *This is a Universal Law*. One is born and then he grows and matures in the “kingdom” of his nature. **He is NOT BORN “when” he is BEGOTTEN**, but rather he is “BORN” when he has a fully developed body and he is able to thrive, grow, and live “separate” from his mother. There is no exception to this rule of Law.

The Bible is a scientific treatise that gives explicit instructions and information concerning the development of the earthly body and mind, to prepare a man for the conception of the “God Seed.” It further explains how the “conception” of the God Seed occurs and how the Seed increases in Substance in the mind and in the body of a man until the “Christ / God-Child” is fully formed.

The Bible explains how the living Substance and the Spirit of the God Seed will transform the substance of the earthly body from within and renew the natural mind. A fully developed, earthly, natural body of a man serves as an “incubator” for the God Seed (egg -- the Seed of the Woman) to be laid in while the Christ Child is being formed in the egg.

When the God within is fully formed and the fullness of the gestation time has come, the outer walls of the earthly bodily form will be removed. Just as the placenta (the water bag a man child is formed in) breaks open when it is time for the child to emerge from the body of its mother, so will the “outer walls” of the “incubator” (a man’s body) be removed (like a serpent that sheds his outer skin), and the new creature within shall go free. In this manner the conception, formation, and birth of a Son-of-God is completed.
